## CSARN Northwest

CSARN Northwest Conference brings together leading business protection and crisis management speakers to share their lessons from the world of the;

- police
- media
- high-profile international organisations
- corporate security
- information security
- business continuity
- International Olympic Committee

CSARN Northwest Conference is launching its first public regional conference at the historic Midland Hotel in Manchester. The Northwest supports almost 250,000 businesses and is ideally suited to attract even more international business. But for a sustainable economy it is mission critical organisations such as CSARN and the Manchester Business Continuity Forum bring together business, police and government to work in a resilient partnership.

CSARN is a not-for-profit business membership organisation dedicated to promote business security, continuity and staff safety in the Northwest and across the UK's many diverse commercial zones. Through events, mentoring, training and advice, our goal is to develop, enhance, support and facilitate safer business environments.

Working to these goals, CSARN will synergise with:

- The business community and major employers
- Police forces and strategic place-shapers
- Local authorities, regional agencies and national Government departments
- Key local, regional and national stakeholders, including: faith groups, charities and sector experts
- Overseas officials and industry experts, to build and nurture inter-city best practice in security, resilience and continuity
